It does not matter what field you have studied in the past to apply for this major. The Major in Environmental Radioactivity provides a variety of specialized education that includes a wide range of lectures, practical training, and field exercises across interdisciplinary knowledge to develop the ability to find and solve problems related to environmental radioactivity through the scientific elucidation of the dynamics of radioactive materials in the environment and their effects. With Fukushima as a field, and under the guidance of our international faculty members, you will acquire the ability to tackle various issues related to environmental radioactivity from a global perspective.

Let's explore science in Fukushima!

Application Period: July 15, 2022 - July 21, 2022
Exam Date: August 19, 2022

Selection Method: Oral presentation, Oral exam
Category: General Exam / Working Person Special Exam / International Students Special Exam
